Class X	
Percentage: 59%	

EXPERIENCE

Web Development	JAN 2025 – AUGUST 2025
Vibrant India Tech,Ahmedabad,India	

- Completed hands-on experience in HTML, CSS, JavaScript, Bootstrap, React JS, and GSAP for building responsive and interactive web layouts.
- Practiced creating reusable UI components and applied modern web design principles.
- Worked on a live project – Therapywala, where I developed dynamic, animated, and responsive pages using front-end technologies.

SKILLS

Technical Skills	Soft Skills
Web Technologies: HTML, CSS, JavaScript, GSAP, Bootstrap, Html5, React.JS	- Proven ability to work collaboratively in a team Strong analytical and problem-solving skills - Flexible and adaptable in response to changing circumstances
Tools:Git , VS Code, GitHub , Netlify,	Effective use of tools and technology to streamline processes Ability to drive change and innovation

PROJECTS

1. SHOPIZER – Online Shopping System
 - Technologies:** React JS, Tailwind CSS, Firebase
 - Built a responsive shopping website with customers and admin modules.
 - Features** include user registration, login, cart, product management, order placement, and payment.
 - Used Firebase for authentication and database, with a clean UI using Tailwind CSS and component-based design in React JS.
2. Real Estate Vibe – Property Listing Platform
 - Technologies:** HTML, CSS, JavaScript, PHP, MySQL
 - Developed a real estate portal with separate dashboards for buyers, seller, and admin.
 - Features:** property listing, search and filters, inquiries, EMI calculator, feedback system, admin reporting. Backend built in PHP & MySQL, with dynamic property listings and role-based access.

3. NEXORA - Shopping Platform

- **Technologies:** HTML5, CSS3, JavaScript (ES6+), Fetch API
- Developed a sleek, responsive e-commerce storefront mockup featuring a dark-mode aesthetic with dynamic product rendering.
- **Features:** Dynamic product fetching, categories filtering (Men, Women, Electronics, Jewelry), real-time search functionality, top-rated sorting, and an interactive shopping cart. Integration with a public REST API (Fake Store API) to handle live product data, pricing, and rating updates seamlessly.
